CreateSpace Independent Publishing Platform. Paperback. Book Condition: New. This item is printed on demand. Paperback. 206 pages. Dimensions: 9.0in. x 6.0in. x 0.5in. We've all seen the shows. They're all over the cable channels. Doomsday Preppers, Doomsday Castle, Armageddon Prep. And that's not even all of them. There are all kinds of other shows and movies that describe various scenarios about how the world is going to end and how to prepare for it. But let's face it. Most of these shows center around multi-millionaires who have the money to purchase an old missile silo in the prairies of North Dakota somewhere. Or the guy who has a 400 acre ranch in Colorado. Or the guy with so much money in the bank that he can build a house with four foot-thick reinforced walls and bullet and bomb-proof windows. Or the guy who thinks he can just buy his way out of trouble, and hoards half a million dollars worth of gold bouillon to trade for water and bullets and food, and whatever else he needs. I don't know about you guys, but I don't have millions of dollars to buy an old missile silo, or to hoard gold. I've never even been on a 400 acre ranch, and I couldn't even make a down payment on a bullet and bomb-proof house. Me, I'm just an ordinary guy. I live in the suburbs. In a housing development, in a regular house. And I'm just guessing now, but I'll bet most of you are more like me than you are like the missile silo guy. And that's the purpose behind this book. I've been prepping for years. I've experimented with food preparation and storage, various low cost security methods, and various ways to help my family survive whatever ugliness is coming our...
