*A whole new eBook with a brand new point of view. It is definitely simplistic but shocks in the 50 percent of the publication. I am just pleased to explain how this is the greatest ebook i have read during my very own daily life and could be he best ebook for possibly.*

## GETTING LEAN: ASSESSING THE BENEFITS OF LEAN PRODUCTION IN FACTORY BUILT HOUSING (PAPERBACK)

Bibliogov, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This document, Getting Lean: Assessing the Benefits of Lean Production in Factory Built Housing, is the final report of the first phase of a planned multi-year research effort to develop and implement lean production techniques for the factory built housing industry. This research effort consisted of two parts. First, a benchmarking survey was conducted of home manufacturers across the country. Benchmarking current performance is a necessary first step in implementing lean production improvements as it provides a series of metrics to gauge future progress. The results of the benchmarking study also help guide future implementation efforts. Second, an in-depth assessment was conducted at one case study plant. This case study was used to test the process of developing lean techniques for a homebuilding plant. Lean production has been successful in transforming other industries, notably automotive manufacturing. With a focused research program and the commitment of leading manufacturers, similar results may be achievable in the factory homebuilding industry. The successful transformation of factory homebuilding into a lean industry will provide substantial benefits to consumers of affordable housing, as well as improve the health of the industry for years to come.
