This publication will be worth purchasing. It really is written in simple terms instead of difficult to understand. It has been designed in an exceptionally simple way and is particularly only right after I finished reading this ebook in which basically modified me, alter the way I believe.

NATIONAL DEFENSE: CONTINUING NEED TO ESTABLISH UNIFORM GUIDELINES FOR CONTROLLING AND ACCOUNTING FOR GROUND VEHICLE FUELS: LCD-77-220

BiblioGov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 30 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. Unlike the Air Force, the Navy has not exercised control and accountability over millions of gallons of petroleum. Petroleum safeguards were so poor and accountability practices so suspect at two Navy facilities that wholesale thefts had occurred. The Navy had not developed control procedures at the installation and unit level. At some activities visited, management guidelines were almost nonexistent, and at others, procedures were fragmented and incomplete. In contradistinction, the Air Force had a sound system of petroleum management at the installations surveyed; however, units at these installations did not always follow these procedures. The Navys deficiencies, combined with similar shortcomings noted in an earlier study of the Army, show the need for establishing uniform guidelines for petroleum management. This item ships from La Vergne, TN. Paperback.
