# Solid Geometry and Conic Sections; With Appendices on Transversals, and Harmonic Division, for the Use of Schools (Paperback)

Filesize: 8.06 MB

Reviews

The ebook is straightforward in go through preferable to recognize. It typically does not charge too much. Its been designed in an exceptionally straightforward way and it is just following i finished reading this book where basically altered me, affect the way i really believe.
(Dr. Reta Murphy)

SOLID GEOMETRY AND CONIC SECTIONS; WITH APPENDICES ON TRANSVERSALS, AND HARMONIC DIVISION, FOR THE USE OF SCHOOLS (PAPERBACK)

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1882 Excerpt: .triangles P A C, P A B , P B C, and therefore the whok triangle ABC is equal to the whole triangle A B C. Theorem 42. The sum of the three angles of a spherical triangle none of whose sides or angles exceeds two right angles is always greater than two right angles. Let ABC be a spherical triangle (vide fig. of last Theorem); then since the sum of the three spherical segments ABAC, A BC B , ACBC exceeds the hemisphere ACA by the two triangles ABC, A BC, but the measures of the three spherical segments are respectively the angles A, B, C of the spherical triangle; and the measure of the hemisphere is two right angles; 1 This proof was first published by Legendre; the discoverer of it is not known. w. (2) 5 therefore the sum of the three angles exceeds two right angles. Cor. The excess of the sum of the three angles of a triangle over two right angles is a measure of its area. If A is the number of degrees in the angle A, S the surface of the hemisphere, the area of the spherical segment =-3-.S; therefore, since ABC is equal to its symmetric 180 triangle A B C, the result of the theorem is that if 2 is the area of the spherical triangle, .S the surface of the hemisphere, . A+B+C-1S0 orS =-7-s, 360 that is, the area 2 is proportional to the...
